

Available for ECR58D, ECR88D

**FOG and FOPS**

FOG, Cabin mounted	<b>CE84001</b>
FOPS	<b>CE84004</b>

Cab mounted FOG (Falling Object Guard) and FOPS (Falling Object Protection Structure) are recommended where there is a risk of falling objects from above or in front.

- The FOG is certified according to ISO 10262 and consists of FOPS and the front guard which is tiltable.
- The FOPS is certified according to ISO 3449 and is easy to install. The FOPS protection structure is bolted on top of the cab.

Available for ECR58D, ECR88D

**Safety net, front window**

**CE84005**

For protection of the front windshield with one-touch handle and the operator when using a hammer or crusher, a safety net is available as a option.

Available for ECR58D, ECR88D

**Rear view mirror**

**CE45010**

This option secures the hidden area behind counterweight through a mirror.
